Subject: RE: FW: FOIA EPA-R9-2015-006163 (Fruitvale Oil Field)

Nikki,

Per our email exchange last week, we have completed our review of the documents already posted to the FOIA Online site. Upon review, we still require the following documents:

- [REDACTED] Copies of the Class V UIC permits for Texaco's "WI-1" (now operated by Alon Bakersfield Property, Inc.) and San Joaquin Refinery Mangement's "WD 1," both located in Section 23, Township 29S, Range 27E, MDBM. It is our understanding, based upon review of the documents obtained from the Central Valley Regional Water Quality Control Board, that approval of Class V injection was issued by the EPA for both of these wells.

- [REDACTED] Communications between the US EPA and DOGGR, including letters, memos, emails, notes from meetings, and records of phone conversations, pertaining to the permit status of these two wells.

- [REDACTED] Communications between the US EPA and DOGGR, including letters, memos, emails, notes from meetings, and records of phone conversations, pertaining to the exemption status of the Santa Margarita formation in the Fruitvale Field.

- [REDACTED] Communications between the US EPA and State Water Resources Control Board, including letters, memos, emails, notes from meetings, and records of phone conversations, pertaining to the permit status of these two wells.

- [REDACTED] Communications between the US EPA and State Water Resources Control Board, including letters, memos, emails, notes from meetings, and records of phone conversations, pertaining to the exemption status of the Santa Margarita formation in the Fruitvale Field.

- [REDACTED] Communications between the US EPA and Central Valley Water Quality Control

Board, including letters, memos, emails, notes from meetings, and records of phone conversations, pertaining to the permit status of these two wells.

- [REDACTED] Communications between the US EPA and Central Valley Water Quality Control Board, including letters, memos, emails, notes from meetings, and records of phone conversations, pertaining to the exemption status of the Santa Margarita formation in the Fruitvale Field.

Thank you very much for helping us in obtaining this information. Please feel free to contact me with any questions that you may have. We understand that there is a considerable volume of FOIA requests; however, we still require the information listed above.

Once again, we appreciate your help and responsiveness in this matter.

Sincerely,

Michelle R Ricker

Excellent! I can then close your request on our end since things are moving on their end. I won't issue a formal response to you since we all have worked through email and the agency has been in communications with you all.

Thank you Michelle and please feel free to come to us if you have any additional concerns.

Regards,

Nikki Gramian
Deputy Director of OGIS

Nikki,

Peter Candy and I both received further clarification from Brett Moffatt. He said that the documents from our narrowed request should be available at FOIA Online today. Once we review those documents, we will determine which specific documents we would need to get the information that we are seeking.

Thank you,

Michelle

Hi Michelle,

Were you able to get clarification of the email Mr. Moffatt sent you below?

Michelle, I have an all day meeting outside of my office today. Please respond to mr. Brett's email. My reading of his email is that EPA will produce the requested records first then the remaining records will be processed. But please verify this with him.

Nikki,

Thank you very much for following up with me.

In our phone conversation on June 12, 2015, I had asked if it was possible to obtain specific documents sooner than the estimated completion date of July 2, 2015. The list that I sent you was not intended to fully replace the original FOIA request. With regard the specific documents listed in my email, waiting until July 2nd (when all the documents would be available) was not a desirable option for us. We understand that EPA staff have already spent time to fulfill the original request. That time has not been squandered, as we would still like to obtain the documents listed in the original FOIA request from Peter Candy.

Please let me know if you have any further questions.

Thank you,

Michelle Ricker

Mr. Candy,

You may be aware that Chad Hathaway has been in contact with the US Office of Government Information Services (OGIS) regarding this FOIA request. OGIS

informs us that in these conversations, Mr. Hathaway narrowed the request to the following records:

A copy of the UIC permit issued by the EPA for "Red Ribbon WD1" (API No. 02978664)

A copy of the UIC permit issued by the EPA for "Red Ribbon WD2" (API No. 029788999)

A copy of the UIC permit issued by the EPA for San Joaquin Refinery Management's "WD-1" (API No. 03003015)

A copy of the UIC permit issued by the EPA for "Red Ribbon WD 3" (API No. 03009732)

A copy of the Aquifer Exemption granted for the Santa Margarita formation within the Fruitvale Field for the purposes of Class I and Class V injection. If the Santa Margarita was determined to not require an Aquifer Exemption, according to the SDWA requirements, please provide a copy of documents supporting same.

Water quality data for the formation water of the Santa Margarita in the Fruitvale Field.

EPA will be responding to this narrowed request as soon as possible, most likely by the end of next week. Please be advised that EPA had already spent a substantial amount of time searching for records related to the original FOIA request, which will be included in the fee invoice at the conclusion of this FOIA request.

Please let me know if you have any questions.

Subject: FOIA EPA-R9-2015-006163 (Fruitvale Oil Field)

Mr. Candy,

This is to inform you of the status of your FOIA, and to request an extension of time for EPA to complete its search and release the non-exempt responsive records.

Our FOIA office processed your FOIA request on April 14, 2015, and followed up with an estimated cost for responding to the FOIA and request for an assurance of payment. EPA received notice of your assurance of payment on May 12, 2015. However, this was a day or two before our Water Division staff moved out of their offices because of renovations to our building, and they were not aware that the assurance had been received. In any event, potentially relevant files had already been placed into temporary storage, and our Water Division staff currently cannot access older records. Staff will be returning in a few weeks, but will need additional time to search for the requested records.

Because of these unusual circumstances, EPA requests an extension of time to July 2, 2015 to respond to your FOIA. Please let me know if this is acceptable, or if you have any questions.

Thank you for your understanding,

Brett
